Maritime Anti-Corruption Network

Agreement for the Digital Distribution and Use of MACN e-Learning courses

MACN has developed an anti-corruption e-learning tool, in conjunction with Ocean Learning Technologies company Videotel.

Use Case: An MACN member with their own Learning Management System (LMS) would like to upload MACN e-learning material.

The following agreement is intended to inform course users of the terms of use and associated obligations relating to this software. MACN requires a signed copy of this agreement from the applicant company prior to provision of the e-learning software and content. The material is provided in a SCORM format.

MACN e-Learning Distribution Agreement

Completion of this form enables you to upload MACN's e-learning material to your Learning Management System (LMS) so that you can provide course access to your users.

The e-learning content is provided in SCORM 1.2 format. **SCORM** (Sharable Content Object Reference Model) is a collection of specifications that enable interoperability, accessibility and reusability of web-based learning content meaning that it can be delivered to learners via any **SCORM**-compliant Learning Management System (LMS) using the same version of **SCORM**. The SCORM files have been tested on a range of available LMS and verified using independent services at SCORM cloud (www.scorm.com). Whilst every effort has been made to be SCORM compliant, MACN accepts no responsibility for ensuring that is compatible with your LMS.

Adding the SCORM files to your LMS

The SCORM files are supplied as a ZIP file. There is no need to unzip the file as this is usually unpacked on the LMS on upload. Unzipping the file may cause issues when trying to upload. All LMS work slightly differently, if you are unsure of how to upload your MACN SCORM files to your LMS please contact your LMS support team.

Once uploaded please ensure the zip file is stored securely so that you do not allow the Terms of Use to be violated.

Terms of use

MACN owns the copyright and intellectual property rights for this e-learning package, delivered as SCORM files. The SCORM file(s) are provided under licence at the sole discretion of MACN. You may upload to your learning management system and use for strictly non-commercial training and educational purposes for as long as your organisation remains a member of MACN. The e-learning or any part thereof may not be used, reproduced, modified, distributed or otherwise dealt with for any other purpose. Any unauthorised use or other exploitation is not permissible and may result in prosecution.

In signing below, you warrant to abide by these terms and conditions:
